

On a personal note

My parents migrated to the "Great Lakes" State of Michigan from New York in the early 1960's and raised their family in the Detroit area.

My father, a retired Obstetrician-Gynecologist, and mother, a retired elementary school teacher, recently moved to Florida to enjoy the warm weather. My father quietly inspired three of their children to pursue medical careers. My two sisters (an Obstetrician-Gynecologist and a Physical Medicine and Rehabilitation Physician) live on the East Coast and my brother (politics/civic planning) lives in Indiana.

My wife, Debbie, and I met in medical school and enjoyed our training in New York and California. Debbie is Board Certified in Internal Medicine and Rheumatology. We enjoy cycling, golf, skiing, and music.

Our daughters Dayna and Rachel are pursuing their undergraduate and graduate degrees and are both looking forward to becoming TPMG physicians in the future!

Rich, Rachel, Dayna and Debbie.
